### "Justice to Quebec"

### THE MINISTER OF PUBLIC WORKS.

The Hon. Mr. Monk, after being declared elected in Jacques Car tier, addressed the electors and spoke in the highest terms of the Pro declaring that he

obecoming that he "gave relaters a very point of the greatest possible groupstly and regized for the Province of Quebec. The same conside he said the said in general from the other provinces. What he said of the said is present from the other provinces. What he said was the said of the said of

ence to doing "justice to Quebec" and the French-Lanadian subjects of His Majesty, is necessary. In what respect has Quebec or any of its inhabitants received other than justice from the Conservative party? The charge has been made, notably by Ontario Liberals, ever since the union in 1843 of Upper and Lower Canada, that the Tories have given the people of that province more than they descree; that, in fact, they were the slaves of what they termed "moutons" of Quebec. The language of Mr. Monk would imply that his countrymen were laboring guage of Mr. Monk would simply that his countrymen were laboring under the impression that the English speaking portion of the Dominion were desirous of not only oppressing that depriving them of their rights as Birtish subjects. The history of the past should have taught them better. Yet it may not be surprising that this feeling exists, when upon reflection it is known that the most inflammatory appeals. are constantly made to them to act in concert with and rally round Sir, Mer. Wilfrid's standard on account of his race and creed, thus leading them to believe that both were in danger of being exterminated if they did not be the concern of the co

may be, and always will be, differences There may be, and always will be, differences of opinion as so the best poisty upon which to govern the country; but rist does not imply the persecution or ignoring of any class of the community. The Effe-lish and French ness islabilit this country, and are likely to do so for all time to corre; there is, therefore, no reason shy this constant refer-ence to "dring paties" to either of the two rares should be the threms at every election. Drop it, and fight the lattite of "polities" upon-principle and not upon rare and creed, that being the only way at building up a united Canada worthy of the abritish Empire.

### THE POSTMASTER-GENERAL.

The Hon. L. P. Pelletier, Postmaster-General, after his election by acclamation in the County of Quebec, addressed the electors in much the same terms as did the Minister of Public Works in Jacques-Cartier, the same terms as on the Manister of Government and foresthologies and foresthologies of the policy of the Government upon the many question, which appears to be all-absorbing, which appears to be the all-absorbing, which is reported, that he would airsis upon having "a referred-um on the many question. # There's Comfort In POSTUM

Many tea and coffee drinkers don't suspect that their nervousness, irritability, sleep-lessness, etc., is caused by caffeine, the drug in tea and coffee.

These little aches and ills are Nature's protests against abuse; and when one's personal comfort is interfered with, common. sense would suggest a change.

It's a safe move and a wise one to quit tea and coffee and take on well-made

When boiled until dark and rich (directions on package) and served piping hot with cream and sugar, Postum is a delicious, satisfying food-drink.

It contains the pure, wholesome nutri-tion of wheat-vitalizing, nerve-building elements which the body and brain require. Read "The Road to Wellville," found in

Speaking of reciprocity, in his speech following his re-election in Jacques Carrier, Hon. Mr. Most said that he hardly realized the importance of this reciprocity measure when it was first introduced for the canadisersion of the Canadisers electrosis, so it had always been required by both parties as a possibility, but as he and his friends stud-eff the measures in the light of public utterness in the United States, all came to realize that it was fraught with the gravest and dire consequences to the propiet of this country. The people have realized what, all the propiet of the country. The people have realized what the station in the Dominion, may to the commercial and to the financial abtuation in the Dominion, may to the commercial and to the financial abtuation in the Dominion, and not not the station in the Dominion, and the notice of the station of the Proping of the country.

### Provinces Producing Shingles

Provinces Producing Shingles

The producing of shingles increases steadily in Canada, and in a
belletin to be published by the Forestry-Branch of the Department of
the Interior this is shown, together with the relative importance of the
algovinces for 1910. Compared with the Canadian Interior cut, the exstret shingle industry amounted to less than the value of each of the five
most important appecies—sporce, while pile, Douglas fir, hemoloc and
Condard-outing 1910. Considered separately, the shingle production
namenes considerable, importance specially in British Columbia. This

short, what is the charge laid at the door of The Globe? Simpl some 2,000,000 copies of The Glob free to readers in different parts of the country and that in so doing the Post Office Department at Ottawa allowed this to be done without the payment of postage which other publishers had to pay; this, too, at an expense to the country of \$25,000. This is not all. The charge is that special train had to be put upon the route to carry The Globe at a

expense of \$40,650 annually."

Are not these charges sufficient se charges sufficient to justify the probing of the who saction to the core?

### The Globe Eulogizes the Premier

The Toronto Globe, of the 4th inst., editorially refers to the Hou L. Borden, Prime Minister of Canada, in the following eulogis

"The first formal protocolement of the new Frime Minister of Cainda was made to a grant faghenting all his supposition, talk own continuous of Helitzen O'Thereday night. Digated in form, controom in pairl, it become the gentleans, Mr. Bedden L. diately following this eulogy The Globe adds;-

"Why should not the Prima Minister at once drop the mis-representations and insincertific which instruct the election comparign? For the victorious leader does nather himself nor his party the slightest good in mulataining and defending the disproved positions then upsidering the stress of the cam-paign."

"Disproved positions," forsooth! It would be interesting when and where the charges preferred against the late Gover have been disproved, or in any way have the views taken on the city pact "been disproved." Mere denials constitute no evide rement entered into by President Taft, and Messrs. Fielding and on was ratified by the electors of the Dominion. It is true The Globe attempts to fasten upon the Hon. Premier a misrepresentation of the terms of the agreement by quoting a portion of a speech delivered by that gentleman during the campaign, in which it is alleged he de-carded that the reciprocity agreement "cannot be amended in any re-spect to meet even the most obvious injustice." Has The Globe made bonest quotation? Suppressio veri is the most disreputable way of representing a speaker.

Had The Globe added the balance of Mr. Borden's utterance upon

the subject of changing or altering any portion of the agreement, it would have been less objectionable. What Mr. Borden said in reference to changes was that no change or amendment could be made without disarranging the whole policy of the pact and disarranging the that gentleman, and no sensible man will deny its correctness. It is difficult to believe that the writer in The Globe did not know the facts. Not to know them is scarcely possible, and knowing them and suppres sing them is characteristic of the political ravings of the leading organ of the Liberal party in Ontario.

ATTRACTIVE IN STYLE AND VALUE

We have had a most successful Coat season so far and we intend to make it the biggest in our history. The world's leading makers at home and abroad have sent their best styles to us, and the rapidity with which they have sold is our best proof that our coats meet every requirement as to style and value. We offer you the largest choosing range between Toronto and Montreal and values speak for themselves

## FIG PILLS

What did you have for **Breakfast?** 

AS it the sort of breakfast that merely played to your appetite? Or was it the sort of breakfast that is not only appetizing, but gives the right fuel on which to do a good day's work?

Food has two purposes: to build tissue and to furnish energy.

Science says that the model food furnishes 5 % pasts energy to one part
tissue. Tillson's Rolled Oats are one of the few model foods because they
lurish energy and tissue in almost exactly, the ratio of 5 % to 1.

For beginning the day's work, there is no better basis than Rolled Oats, and there are no better Rolled Oats than Tillson's.

OU need not worry about the possibility of getting something you won't look well in.

It is a matter of personal interest to us that every man shall look well in, and be satisfied with, what he buys here.

filler When he tells his friends that he was fitted with a suit or overcoat by Gulck & Robertson, we want his clothes to look so well on him that his friends will at once resolve to make this their store also.

That's the idea we're building on—that's why our service is a great benefit to our patrone. We assume the responsibility of clothing you just right.

Never Before Were Full Dress Suits So Fine

BUT do not suppose from this that Fit-Reform Full Dress Suits have not always been "The final word" in hand-tailored garments.

They have. They are.

Every year, we strengthen the buying organization, getting better values as we are able to place larger orders.

Every year, we strengthen the tailoring organization with another twelve months' experience to guide us.

So we can truthfully say, \*Never before were Fit-Reform Full Dress Suits so fine\*—never before have you been able Full Dress Suits so fine —never before have you been able to get so many elegancies that make up the perfect garments.

# Our Clothes Speak Well of Us

There's always a temptation to talk "big." Sound clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good crothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

# What is a perfect food

T'S the food that develops both tissue and energy in the right proportions, And science says the right proportions are 51/2 to 1;

Why do babies thrive on milk?

Because milk is the perfect food. It furnishes 5% parts energy to 1 part tissue.

Why do both youngsters and grown-ups thrive on porridge?

Because it also furnishes almost exactly 5½ parts energy to 1 part tissue. And it is about the only food besides milk that is practically perfect.

But use the right kind of Oats for your porridge.

Tillson's Rolled Oats make porridge that is porridge.

Not a flake broken. That means porridge that is not a sticky, jellied mass, but inviting and delicious.

Every flake rolled so thin that Tillson's cooks perfectly in 15 minutes-no more.

Try Tillson's tomorrow.

# Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising. is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter carments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

HAT'S one beauty of Tillson's Oats. Every flake is whole.

Not a

Flake

Broken

That's why porridge made from Tillson's Oats doem's come to the table a sticky, jellied mass; but instead, as inviting to the eye as it is tasty to the palate and nourishing to the body.

Every flake is as thin as it can be rolled without breaking it.

That's why Tillson's Oats' are cooked thoroughly in 15 minutes—no more. No all-night cooking, as it used to be with the old-fashioned oatmeal. No half raw porridge due to imperfectly rolled oats.

If you ever found porridge hard to digest it was because you made it from rolled oats containing coarse and fine particles, some of which were not cooked through.

Compare Tillson's Oats with any others that you have been in the habit of using, and you will see and taste the difference.

Try them tomorrow.

### 'Organized Hypocrisy'

One of the most audacious declarations ever made rty in Canada is contained in the platform which the Grits of Ontario built for their new leader, Mr. N. W. Rowell, and upon which he need their intention of standing in the forthcoming elections to the Parliament of Ontario. 'It reads as

"We will prohibit under adequate penalties all corpora-tions over which the Province has periodicise from making-campaign contributions to candidates and political regular closes, and provide for the appointment of a public presenta-tion in Engineer when the proposition of a public processing as in Engineer with all who are gailty of decional fraud or cor-ruptions are doly prosecuted."

To which Mr. Rowell's leading journalistic supporter, The To be, adds the following laudatory con

Mr. Mackenzie, honest man, no doubt meant what he said; bu at followed his attempt to "elevate the standard" of public morality? mply this, that the election which followed a couple of months after he had thus spoken—the first held under the ballot—was proved to the most corrupt that was ever held in Canada. # Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good ciothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

# Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good ciothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have tHe sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

GENTLEMEN,—The Kohler & Campbell planos which you supplied this hotel are most satisfactory in every respect. We had no idea that we would get instruments as satisfactory in tone carriability and general appearance by buying your planos at a medium price, and it was only on the recommendation of others that we, were induced to do so. We thought be would have to pay a higher price for the instruments in order to get satisfactory planos, but we have found your instruments to give just as good satisfaction as some planos for which we have paid twice as much money. Every one is very much pleased with the planos and we have an excellent opportunity of giving them a severe test, because the planos are moved from one suite to another as the guests may require, and they are praised by everyone.

We shall be glad to advise you when we are in need of any more planos, and with very best wishes, we remain very truly yours,

# Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

Eat More Bread

Few people eat enough of what is rightly called "the staff of life"

NOOD authorities declare that wheat is the KING of all-foods. It is the best food for growing childran, the best food for growing childran, the best for old age, the best for every age of life. It is best chiefly because it contains most of the life-building nitrogen combined with the proper degree of starch.

of all the forms in which wheat may be esten, bread stands at the top. There is no food yet created that can take the place of good bread," the staff of life."

The better the flour you use, the better, more wholesome, bread you'll make. And better bread means the use of PURITY FLOUR.

PURITY FLOUR.
The bread will be fetter, higher-class, because PURITY FLOUR consideration of the high-grade portions of the best Western hard wheat. There are no low-grade portions of the hard wheat berries, nor soft wheat flour, it it is all high-grade-a alrung, in it. It is all high-grade-a alrung, the properties of the high-quality nitrogen, gluten, starch high-quality nitrogen, gluten, starch and "phosphates—the, blood-spatiching,

body-building and life-austining dements of the world's strongest wheat. Think of the added enjoyment of eating bread you know is so chook-full of wholesomenes. Think of the good it will do your children, your, aushand and yourself. Think of the wisdom of eating lots and lots of it, for it is, a fact known to the medical profession, that few people eat enough of "the staff of life."

Of course PURITY FLOUR, will cost you slightly more than ordinary flour. It's worth the difference. And it will make "more bread and better bread" for you than you can obtain from the same weight of ordinary flour.

and the pastry PURITY PLOUR makes! It's more delicious too, if you take the precaution to add more short-ening than is required with ordinary flour. The extra strength of FURITY FLOUR requires the addition of more shortening for best pastry-results. Think of the PURITY trade-mark-when you buy flour.

Add PURITY FLOUR to your grocery list right now.

## Which?

O you know the history of the rolled oats in the scoop? From the mill those oats went into bags. The bags went into cars more or less clean. The cars emptied the bags into the grocer. He put the bags into this storecom, or maybe up against his counter where the cat may have slept upon them, the mice nibbled at them, the dust of the store settled on them and the shoes of customers rubbed

Now compare this with the history of the rolled oats in the Tillson package. From the time Tillson's Oats are harvested in the field to the time you receive the package in your home, those oats are never touched by the hand of man; nor are they exposed to any unsanitary, unappetizing environment. You receive them absolutely clean.

Which kind of oats will you eat?

# Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

#### WAIST COMFORTERS

The Maish Lamiaied Cotton Down Comforter is a fluffy mass of tiny air-cells; By a wonderful new process, the long filbers of the finest snow white cotton are separated; curled and then woven into a thick, soft, downy piece. This continuous one-piece filling is the same thickness at every point, no

piece hung is the same trickness at every point as unumps, not hin places.

It will never flatten nor lose the extreme lightness and warmth that makes it so delightful to sleep under. # Our Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced:

Many wise men discovered this fact years ago and are still buying their clothes here.

The past three seasons our store at holiday time has been the centre of attraction for the children.

Our display of Dolls, Toys and Games has been large and varied. Now that the fall days are here the little tots are kept more within doors, and naturally have to be amused. Within the past two weeks we have had many enquiries for toys, and have decided to open a Toy Department-Quite a large consignment of these goods has arrived and will be placed on sale in the annex tormerly given over to Japanese china.

# Dur Clothes Speak Well of Us

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Pall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

IN the making of everything for which flour is required, PURITY FLOUR gives adminishe results. Among lifestands of cooks it is stocknown to the everything of the property of the everything the results will give you a higher degree of satisfaction than you've ever experienced when ordinary flour was used.

There is added deliciousness to the flavor.

extra quality in every ounce of the bread, or the cake, or the biscuits, or whatever you may make with PURITY FLOUR.

PURITY FLOUR gets its finer flavor, greater strength, extra. nutritiousness and higher-quality

from the high-grade portions of the hard wheat berries. All the love-grade portions are excluded during its process of milling. PURITY FLOUR will cost you slightly more than ordinary flour. But it's worth more. It costs more to make it.

The present huge demand is your proof of how firmly PURITY FLOUR has established itself among the thousands who place quality before price.

"More bread and better bread" and better bread"

Reminder: On account of the cutre strength and cutra quality of puRITY FLOUR, it is necessary, for best party-results, to add more shortening than you are accustonied to use with a "blended" or Ontario wheat-flour. Add more water when making bread.

HE chances are that Dad was raised on porridge. There is no food more help-ful in making strong, well-developed men out of boys than pre-pared oats-There is no other way of preparing oats to make them palatable, digestible and nourishing, so good as the rolling and pan-drying process.

There are no other rolled, pan-dried oats in which this process has been carried to such perfection as in Tillson's Rolled Oats.

Each flake of Tillson's is rolled to ex-treme thinness, and all the flakes are as uniform in size as careful grading can make them. That's why Tillson's Rolled Oats are cooked perfectly in 15

Another thing, Tillson's Oats are dried in pans enclosed in kilns, not open ones; thus retaining all the natural flavor and aroma.

Be sure to ask for Tillson's.

Wert Land Reginition is a state of the state of Good COFFEE at Last

-gives all the good of the Coffee, and always good Coffee-always.

First of all, let us tell you something about coffee.

Nature lines the Coffee berry with an inner coat, just as she covers grains and nuts. This coat contains tunnin and other bitter principles which, when roasted and ground with the Coffee, (as is the usual process) makes Coffee bitter and causes Indigestion, Biliousness, Headaches and other injurious effects.

Dalton's French Drip Coffee is free of this bitter coating when it reaches you, because we remove itleaving only the heart of the berry, rich in aromatic oils that lend to good Coffee its delightful flavor and satisfying qualities. Dalton's Coffee is properly roasted. The ordinary way of roasting Coffee is to put the berries in a revolving cylinder over a coke or gas fire and slowly roast them. This, of course, does roast the Coffee but gradual heat also drives off the volatile oils which are so necessary in a full flavored Coffee.

The Dalton way is to throw the Coffee through an intensely hot flame which roasts the Coffee in half the time and retains the essential oils. Same principle that every housewife recognizes in roasting meat. Good cooks know the oven must be very hot when the roast is put in, so the meat will be cooked quickly on the outside and all juices of the meat thus retained.

After Dalton's Coffee is roasted, a strong air-blast is applied in cooling it—which eliminates any dust which might be present. In the grinding process, another air-suction removes the inner shell.

We not only give you good, wholesome, delicious Coffee—we also give you Free the means of making the Coffee as it should be made.

Coffee making is just like bread-making. You can spoil the best materials in the making. In fact, the right way to make Coffee, is just as important as having the right Coffee.

# alton's French Drip Cof

There is only one way, to make good Coffee—this is, by the French Drip or Percolator Process. Heretofore, good percolators have been very expensive, and even then, did not work satisfactorily. We have secured sole rights for a French Drip Coffee Pot that is easy to clean—reliable—and thoroughly satisfactory for making Dalton's French Drip Coffee as it should be made.

You will more than appreciate the difference between Dalton's French Drip Coffee, made in a Dalton French Drip Coffee Pot—and ordinary boiled Coffee. Boiled Coffee is always bitter and indigestible. And it is exceedingly expensive too, because boiling drives off the flavor and you have to use so much Coffee to get any flavor at all.

-all the fragrance and aroma-of Dalton's Coffee-and there is no bitter taste because it has been removed by the Dalton process of roasting and grinding.

It is the simplest and most satisfactory Coffee pot ever invented. It is impossible to make anything but good coffee with it, if you use Dalton's French Drip Coffee to begin with. Every day—every meal—your Coffee will be uniform—never bitter because containing no

Every cay—every meas—your Conce win or uniform—never inter because consuming on tanini—never weedy because never boiled—never too week or too strong—but always just so unlike it, year in and year out. Dalton's Coffee costs 50c. a tim and is the most economical coffee on the market because TWQ pounds of Dalton's French Drip Coffee made in Dalton's French Drip Coffee for, will make as many cups of elightful Coffee as THREE pounds of ordinary Coffee. The MILD Coffee is soft, full-flavored blend,

noted for its fine aroma—the STRONG is a rich heavy Coffee, especially suited for after-dinner Coffee and cafe noir. You can't tell which you will prefer until you try both.

There's always a temptation to talk "big." Some clothiers can't resist it.

The way we get our very best advertising is by selling clothes so good that they do their own talking.

If you consider merit and appreciate good clothes we ask you to examine our new Fall and Winter garments.

We believe that you will see in short order that we have the sort of clothes that you'll take pleasure in wearing, and furthermore that they are reasonably priced.

Many wise men discovered this fact years ago and are still buying their clothes here.

## High Class Dress Goods Renmants

After an unusually brisk fall Business we find upon looking through our stock that as usual we have a large assortment of Dress Goods Remmants.

As, is a rule, with this store, we make it a point that whenever an end of goods is sold, a reduction is made.

In this sale, besides making the usual renmant reduction, we have cut into the price as well, and consequently can offer many very attractive bar-gains,

Included in this sale of renmants are found many different lengths, and without a doubt you will be able to find some few, which will be most suitable for you needs.

auitable for you needs.

All together this sale comprises some 100 odd renmants, each striving to outdo the other, in an effort or give better value. This sale will last from Wednesday Morning until Saturday Night, affording you ample time to go over the lot carefully.

Drop in our store some time and see the new, bright and up-to-date things we have for Christmas

WOMAN WAS FOUND.

Mrs. Joseph Snider, the woman who on Twesday night, while in a side condition, left her home, at Trenton, was yesterday found near the G. T. R. station in that town. The unfortunate woman was in a serious condition, having evidently been exposed to the cold during the night and part of vesterlay.

"Well, I guess I have been asleep on the porridge question." After you have eaten Tillson's you'll admit there's a difference in por-ridge. First the flavor. That's because we pan-dry Tillson's Oats by a different process.

We evaporate the moisture—not the aroma nor the flavor.

we evaporate the mosture—not the aroma nor the flavor. Then the appetizing qualities. These are due to the careful rolling of the cats which keeps every flake whole and unbroken. All the gluten and starch in the cats is retained in the flake, so that your pornidge will not have that sticky, gelations, unputable somistiency.

You know that pornidge is unexcelled as a nourishing food. You will know when you try it that pornidge made from Tilson's Rolled Oats is unexcelled as a delicious breakfast dish.

# French Drip Coffee Pot FRE

So You Can Make Coffee As It Should Be Made There are two reasons why many people do not drink Coffee every day. The first, is because ordinary Coffee gives them Indigestion

and Headaches The second, is because ordinary Coffee, made in the ordinary way by boiling, is too expensive and too troublesome to make.

We are going to tell you about the Coffee that is wholesome and healthful—that you can drink for every meal and—that is the most delicious Coffee you ever tasted. We will also tell you how to make this Coffee,

The first trouble with ordinary Coffee had been a singular neglect in the roasting process.

The Coffee bean-like nuts and grains-is lined with a tough coat containing tannin and other bitter substances, Ordinary Coffee is roasted and ground with this coat

in, so that the bitter tannin comes to you in the ground Coffee and boiling only makes it worse,

Now, Dalton's French Drip Coffee is specially roasted and ground by a new and improved process. By throwing the Coffee through an intensely hot flame; we roast it so quickly that the essential oils—so vital to flavor and aroma-are retained. After this special roasting, comes a special

cooling. A strong suction air-blast removes all chaff and dust. Then comes the grinding, in which another powerful suction air-blast removes every particle of the bitter, indigestible lining. Dalton's French Drip Coffee makes a beverage that is a joy to the palate, and a delight to anyone who wishes delicious, fragrant Coffee. It is wholesome and healthful and may be enjoyed at every meal, day after day, with the utmost satisfaction.

# Dalton's French Drip Co

Few people know how to make good Coffee, Boiling drives off the flavor and destroys the delicate, aromatic oils. Boiled Coffee is also expensive, because it requires in unnecessarily large amount of ground Coffee to make a cup that has any taste at all

There is a method, however, by which anyone and everyone can make splendid Coffee, and make it right every time. This is the French Drip, or Percolator, method. In the past, percolators have been expensive and apt to get out of order. Now however we have secured the sole rights for a French Drip Coffee Pot that is durable, easily cleaned, perfectly simple and not expensive-because we know that people would drink Coffee in preference to anything else if we could give them wholesome, delicious Coffee and show them how to make it.

MILD BLEND COFFEE

We have the Coffee and now we have the Coffee pot which we want to give you absolutely free so you can try Dalton's French Drip Coffee as it should be made. Read our Special Introductory Offer.

We make Dalton's French Drip Coffee in two Blends-Mild and Strong.

The MILD Blend is a delicious Coffee-the STRONG Blend has the full, rich flavor especially suited for after-dinner Coffee,

You really can't tell which one you will prefer for regular use until you try both. This is why we make it a condition that you get a tin of each,

Dalton's French Drip Coffee is not expensive, Two pounds of this specially roasted and ground Coffee used in Dalton's French Drip Coffee Pot will make as many cups as THREE pounds of ordinary Coffee.

#### SPECIAL INTRODUCTORY OFFER

We feel so sure that you will find either Dalton's Mild Blend or Strong Blend French Drip Coffee just the Coffee which you have been looking for, that we have Coffee which you have been soaking for, that we have authorized your Grocer to give you one of these handsome pots (worth \$1.30) absolutely. Free with your first purchase of a 50c. tin each of Mild and Strong Blend. You buy two
